

SKILLTRADE

Specialized in hydrographic training for the hydrographic survey, dredging and offshore industry since 2000

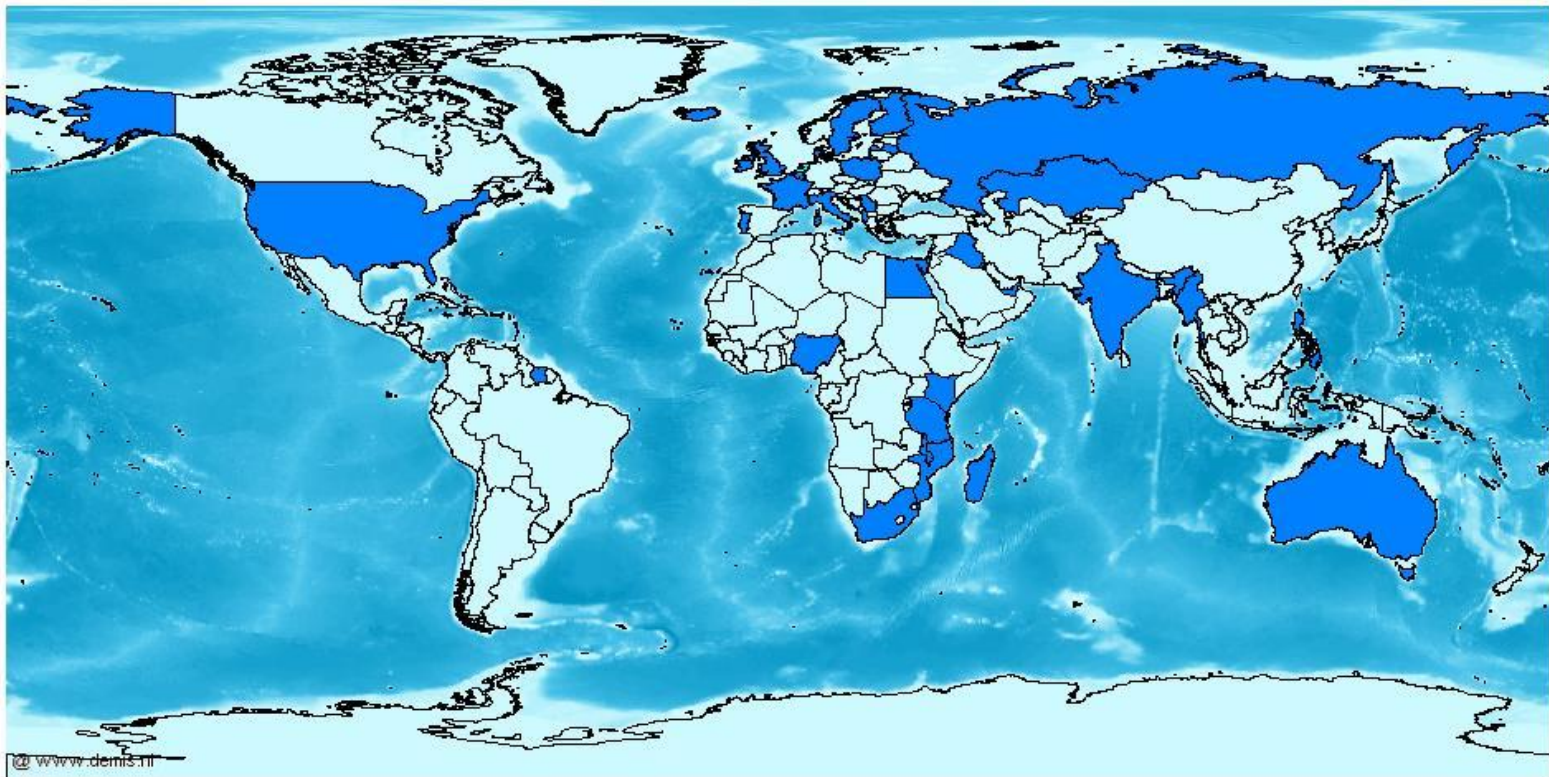

Johan Stam,
Managing Director

Hydrographic training

- Hydrographic Survey Category B
- E-learning courses
- Introduction to Hydrography
- Advanced Introduction
- Basic Electronics Course
- Offshore construction

We have an international approach,
with students from all over the world.

Hydrographic Survey Category B Course

- Recognized Category B programme
- Intense course of 24 weeks, a 12 week course in IJmuiden, preceded by a 12 weeks e-learning program.
- The curriculum is compiled with weekly workshops, transfer of technology and ends with a practical project.

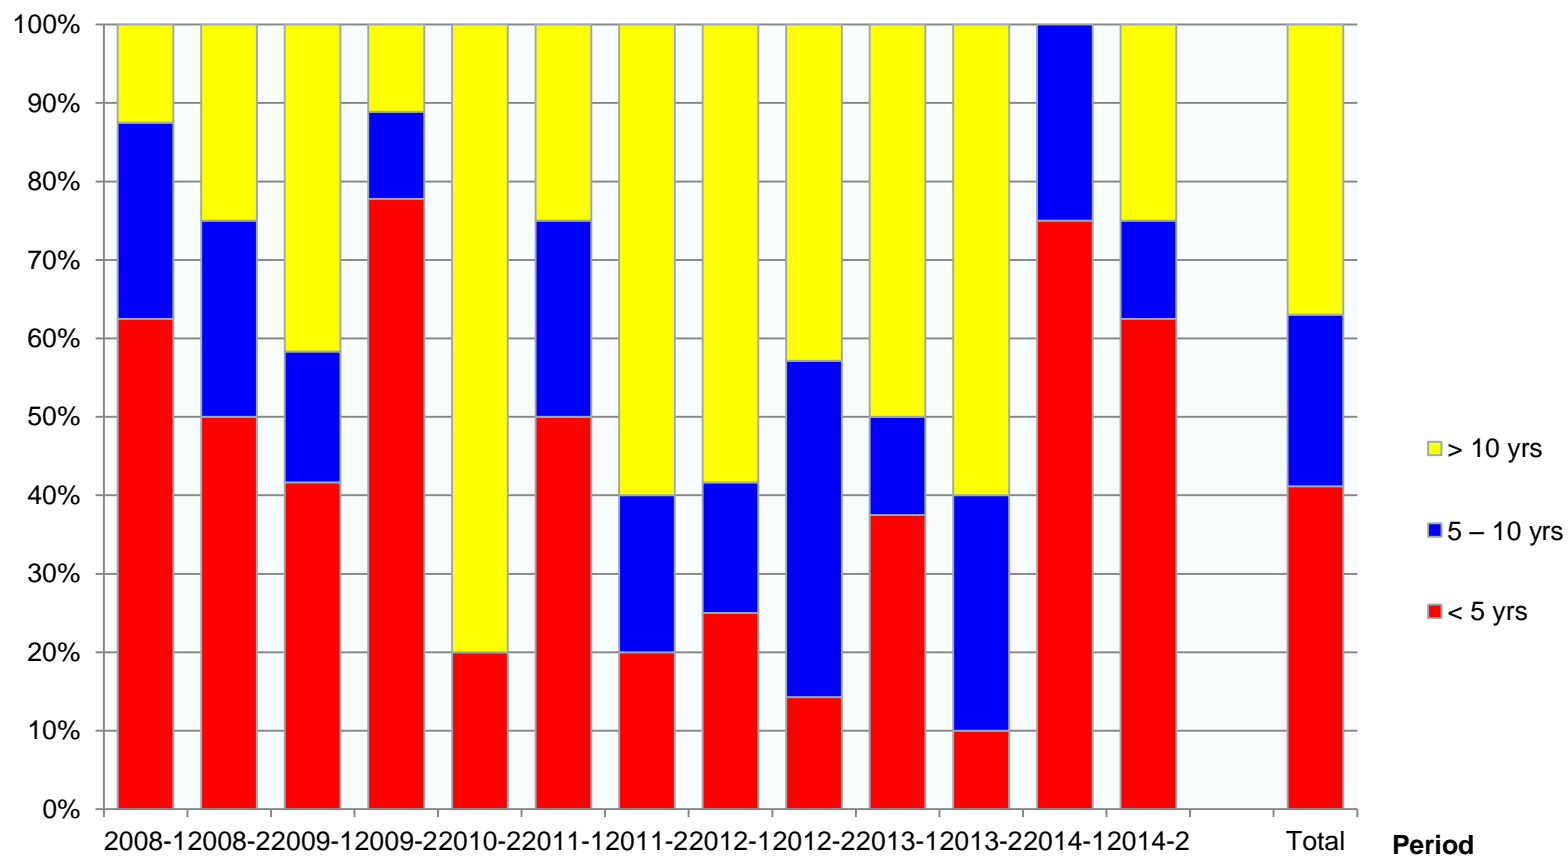

Outstanding Results of the Students

Up to and including the 15th class		(end 2014)
Numbers of students	137	
Failed and/or stopped	18	13,1%
Certificate of Programme Completion Issued*	119	86,9%
*15 students (10,9%) succeeded after resits		
Certificate of Field Proficiency Issued after 2 years of logging	49	35,8%
Working on logbooks	30	21,9%
No logbook	40	29,2%

SKILLTRADE

Statistics Work Experience

Competence and certification

- RWS – POR – M.O.D. in England require minimum CAT B of their sub-contractors on board
- Sea charts need to be certified all over the world for safer shipping routes
- IMCA provides guidelines for operational functions; such as divers, ROV personnel and hydrographic surveyors.

Skilltrade E-learning

Since 2014 we offer the following e-learning courses:

- Bathymetry
- Geodesy
- Global Satellite Navigation Systems

From September 2015 these e-learning courses will be a part of the Hydrographic Survey Category B course.

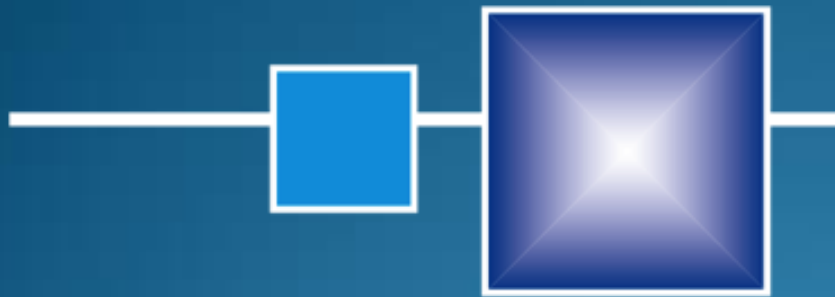

Handbook of Offshore Surveying and GPS Handbook

Records and references

- Since 2000 we have trained over 1500 students
 - More available certified personnel
 - More knowledge and understanding of Hydrography, which leads to efficiency and improves communication
