The Centre for Marine Policy invites you to attend the Master Class on Marine Spatial Planning

The Centre for Marine Policy, is proud to announce a Master Class on Marine Spatial Planning. This event will take place on October 30th and 31st, 2012 at the World Trade Centre in Leeuwarden, the Netherlands. You are invited to attend this international event which brings together users, stakeholders, scientists and policy makers to share new and innovative knowledge on Marine Spatial Planning.

The Master Class offers knowledge on state of the art science, practices and tools for Marine Spatial Planning. Plenary sessions, break out discussion groups and workshops allow participants to choose their own tailor-made programme. The support of the Province of Fryslan is gratefully acknowledged.

A selection of the programme

Lectures:

- Mrs. Tundi Agardy is director of the Marine Ecosystem Services (MARES), a program which is part of Forest Trends. She is also executive director at Sound Seas. Mrs. Agardy will give a lecture on ocean zoning with respect to competing claims.
- Mr. Haitze Siemers is Head of Unit Maritime Policy Baltic, North Sea and Landlocked Countries. This unit is part of D.G. Fisheries and Maritime Affairs. Mr. Siemers shares his knowledge on the EU Integrated Maritime Policy.
- Mr. Jos Beurskens is a former Scientific Director at We@Sea, a foundation aiming at acquiring knowledge in the field of offshore wind energy. Mr. Beurskens will give a lecture on planning renewable energy production in a crowded sea.

Discussions:

- Blue growth and the limits of space.
- How to use Marine Protected Areas?
- Different sectors, different stakes: how to organise participation.
- 'Can I buy a part of the sea?'; Marine spatial planning and ownership.
- A sectoral approach or an integrated approach?
